Safety Flags with Quick Release Base

#QVSFQ

AUTOMOTIVE | MINING | MARINE

www.qvee.com.au

DESCRIPTION

The QVEE safety flags (sometimes called buggy whips) are constructed from a heavy duty fibreglass internal rod, coated in a UV stabilised red outer sheath. A multivolt LED is fitted to the top with "O" ring seal. UV stabilised cable ties are used to fix the flag and power wire at the base. A 150mm pre wired cable. A female DT2 Deutsch plug connector is also fitted as standard to all QVEE safety flags.

Avaliable in 1.2m, 1.8m, 2.4m and 3m lengths.

FEATURES

- Fibreglass shaft
- High visibility red sheath and flag
- Quick release base
- Multivolt 12 - 24V LED fitted
- Deutsch connector (female half only)
- Rust deterrent grease in base

TECHNICAL SPECIFICATIONS

Voltage	• 12 - 24 Volt
Lengths	• 1.2m / 1.8m / 2.4m / 3m
Cable Length	• 150mm

COMPRISES

Part No.	Description
QVFLAG	• Red Safety Flag (No X Reflector)
QVSFQRMALE	• Quick release connector base
QVSFQTOP	• High visibility multivolt LED
DT2HALF	• Pre-wired female DT2 connector

EACH SAFETY FLAGS INCLUDE:

P/N. QVFLAG

P/N. QVSFQTOP

P/N. QVSFQRMALE

** All accessories come pre-assembled*

SPARE PARTS:

P/N. QVFLAGX
Replacement Flag with X

P/N. QVFLAGXHD
Replacement Heavy Duty Flag with X

P/N. QVBRK5
Bracket to Suit Safety Warning Flags

FLAG MEASUREMENTS

Part No.	Dimensions
QVFLAG	• 262mm L x 245mm H
QVFLAGX	• 262mm L x 245mm H
QVFLAGXHD	• 270mm L x 288mm H

Part No.	Description
QVSFQ1200	• 1.2 meter safety whip with LED, DT connector & quick release base
QVSFQ1800	• 1.8 meter safety whip with LED, DT connector & quick release base
QVSFQ2400	• 2.4 meter safety whip with LED, DT connector & quick release base
QVSFQ3000	• 3.0 meter safety whip with LED, DT connector & quick release base
